There is a lot that divides people today. We are divided by race, language, culture, economics and politics, just to name a few. We look around us and see a fragmented and divided society. Is there anything that can unite us in our day? The Apostle Paul would answer with a resounding "Yes!" In his letter to the Ephesians he says that just as God is united with his son and the Holy Spirit, Christians can be united with one another. Jesus has torn down the barriers that so easily divide us. He's given his church a message of reconciliation to all people. When we respond to God's free gift of grace, then we all can experience the unity that comes from knowing Christ.
